

On behalf of EMC (*Excellence in Manufacturing Consortium*), we hope that you, your family and colleagues are staying safe and well during this unprecedented time. In keeping with social distancing recommendations, we have transitioned our in-house Event to a Webinar format and hope that you can join us for this special session!

WEBINAR: Tuesday, June 9th, 2020 @ 10:00 am PDT/1:00 pm EDT/2:00 pm ADT

“The Future of Food Manufacturing Post COVID–The Long View”

We are incredibly pleased to be welcoming Guest Speaker, *Brad McKay, Former CEO – Healthcare Food Services*, who will be sharing insight on **“The Future of Food Manufacturing Post COVID – The Long View”**!

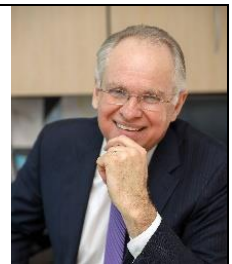

With the world’s population expected to grow by 2 billion people by 2050 we will need new and innovative means of safely producing, manufacturing, and delivering food in manner that is still environmentally sustainable.

The COVID19 pandemic has created new ways of working and has accelerated others already in progress. This talk will look at food manufacturing over the next 30 years and take you to a world where by 2050 our society, our eating habits, and our means of acquiring food will be quite different and manufacturing likely not recognizable as it currently is!

Join us as our Speaker shares his thoughts and perspectives around:

- Manufacturing related technologies available today
- Technologies we have not yet thought of, or commercialized, and the
- Potential impact on our ability to manufacture an ever-increasing amount of nourishing food without destroying the planet!

Brad McKay is a Former Chief Executive Officer of Healthcare Food Services, a leading Canadian marketer of nutritious prepared meals for the healthcare sector. Brad is currently a member of the Board of Directors of Food Processing Skills Canada and the Yves Landry Foundation and has been a member of the Governing Council of IUFoST (International Union of Food Science and Technology); President of CIFST (Canadian Institute of Food Science and Technology); and past Board Member for the Canadian Advanced Food and Materials Network (AFMNet); Canadian Cheese Holdings in the UK and CAFS (Canadian Association of Food Service Professionals) Ottawa. He is a graduate of the University of Waterloo in Engineering.

REGISTER BY EMAIL

UNABLE TO ATTEND

EMC’s Strategic Interest Group (SIG) events are facilitated manufacturers’ peer networking opportunities. There are over 60 EMC consortium regions in Canada, where members gather to share best practices, discuss opportunities and challenges to enable competitiveness, take in plant tours and build relationships with both peers and our valued community stakeholders and partners

Stay well and stay safe! We are in this together!
