

EMC FOOD & BEVERAGE SECTOR MANUFACTURERS PEER NETWORKING EVENT INVITATION

On behalf of EMC, we cordially to invite you to join us at our upcoming Food, Beverage, Bio and Ag Manufacturers' Networking Event! It's always a great time to learn and engage in discussion relating to the topic at hand while connecting with your peers in the industry!

EVENT TOPIC: Environmental Monitoring Best Practices

Our focus at this Special Food and Beverage Networking Session is on environmental monitoring and we will be sharing some best practices in that regard.

An effective environmental monitoring program can help strengthen your Food Safety Program and can aid in creating benefits such as:

- extending product shelf life
- reducing the risk of recalls
- reducing cost
- increasing customer satisfaction
- streamlining production
- increasing revenue

3M Canada - Food Safety, in partnership with Cornell University, recently completed an Environmental Monitoring Handbook for the food and beverage industry. At this special event, we look forward to exploring the concepts of environmental monitoring, including controls, risk assessments, and recalls!

We hope you can join your industry peers and fellow EMC Members, as we learn from subject matter experts, and explore Environmental Monitoring Best Practices!

Upcoming Events

- **Scheduling 2021: Topic and Schedule Development**

EMC's Strategic Interest Group (SIG) events are facilitated manufacturers' peer networking opportunities. There are over 60 EMC consortium regions in Canada, where members gather to share best practices, discuss opportunities and challenges to enable competitiveness, take in plant tours and build relationships with both peers and our valued community stakeholders and partners.

We hope you can join us and look forward to welcoming you!
