

HEALTH AND SAFETY CERTIFICATE

Manufacturing Essentials Certification (MEC) – For Health and Safety is an initiative designed for those looking to enhance the Health and Safety of their workplaces. This program is designed for Health and Safety Stakeholders looking to enhance their knowledge and skills. The program focuses on encouraging the development of Health and Safety Knowledge, Best Practices, Problem Solving and Critical Thinking. Through a hands-on Workplace Performance Project participants are able to apply their learning on a project that helps to promote a healthy and safe work environment. By developing these skills, companies can expect stronger health and safety awareness, a positive workplace culture, and overall better employee engagement.

LEARNING PATHWAY

Communication

Problem Solving & Critical Thinking | Business Case Presentations | Conflict Resolution | Leading in H& S | Working with others to achieve a H & S goal

Problem Solving & Process Improvement Training

Problem solving | Action Planning | Continuous Improvement | Critical Thinking | Communication | Data Collection & Analysis | Outcomes and Follow Up

Workplace Performance Project (WPP)

Identification of Challenges | Exploring Opportunities | Team Building Conflict Resolution | Project Planning & Execution | Measuring Results

Participants use processes and tools introduced throughout the program to plan and execute a workplace performance project. They will gain hands on experience with conflict resolution, cross functional communications and how to work effectively as a team. This project provides participants with knowledge, tools and confidence to use for future Health and Safety opportunities.

This program provides skills training using industry validated content, live or virtually facilitated learning blended with e-learning and an action-based workplace performance project. Sessions can be run in a cluster format - the blend of several different organizations in one session, or in a stand-alone format - private to just your organization. The program is offered in both online and in-person formats; both of which include ongoing support from professional trainers.
