

MANUFACTURING
ESSENTIALS
 CERTIFICATION 

PRODUCTION WORKERS CERTIFICATE

The Manufacturing Essentials Certification (MEC) Program – For Production Workers is an initiative designed to engage production workers in the problem-solving process and continuous improvement initiatives within the workplace. The program focuses on the development of critical thinking, team work and workplace communications. Developing these skills supports increased productivity, improved workplace culture, enhanced team communication, higher employee engagement and promotes a collaborative working environment.

Learning Pathway:

Communication and Soft Skills Training

Team Building & Collaboration | Working With Others
 Oral Communication | Workplace Communication via documents, processes and meetings | Equity, Diversity & Inclusion

Problem Solving & Process Improvement Training

Problem Solving | Action Planning | Continuous Improvement
 Critical Thinking | Communication | Data Collection & Analysis

Workplace Performance Project (WPP)

Identification of Challenges | Exploring Opportunities | Team Building
 Conflict Resolution | Project Planning & Execution | Measuring Results

Testimonial

I enjoyed learning how to:
 - Think outside the box!
 - Be able to explain to superiors and presenting resolutions, not just problems!
 - Implement solutions!

Christopher Delaney,
 Lead Hand/Yard Materials
 Multivans

Participants use processes and tools introduced throughout the program to plan and execute a workplace performance project. They will gain hands on experience with conflict resolution, cross functional communications and how to work effectively as a team. This project provides participants with knowledge, tools and confidence to use for future improvement opportunities.

This program provides skills training using industry validated content, live or virtually facilitated learning blended with e-learning and an action based workplace performance project. Sessions can be run in a cluster format- the blend of several different organizations in one session, or in a stand-alone format-private to just your organization. The program is offered in both online and in-person formats; both of which include ongoing support from professional trainers.

Who is best suited for this stream:

- Individual Contributors in any departments (ex: Production Floor, HR, Sales, Operations etc)
- If sending multiple participants, we highly encourage the inclusion of employees from different teams or diverse background from one another to enhance hands-on learning

EXCELLENCE
 IN MANUFACTURING
 CONSORTIUM
