

SRED CHECKLIST

- Have you developed new or modified products/processes?
- Did you make any prototypes or test parts?
- Did you use new materials in the last year?
- Did you or your customer modify the design of a part/product while you were working on it?
- Did your customers come back to you with issues on parts/products that you did for them?
- Did you have to prepare fixtures or modify in-house equipment?
- Do you have a technology that you wouldn't want your competitors to learn?

Did you have to make changes to your manufacturing process or product design due to:

- Health and safety or environmental issues?
- Efficiency?
- New customer specifications?
- Quality policy?

Have you made any progress or improvement regarding:

- Quality or cost?
- Cycle times?
- Scrap rates?
- Life cycles?
- Understanding root causes?

If the answer to any of these questions is "**V**" then you may have a SR&ED Claim! *This is where the SR&ED Tax Credit program and EMC's Turnkey Solution comes into play, as the best offensive strategy to using all available funds and resources in order to support achieving your business objectives.*
