

HEALTH & SAFETY

INDUSTRIAL STRENGTH SAFETY

Do You Consider Your Workplace a Leader in Health and Safety... or is it Merely 'Safe Enough'?

EMC is one of the original sponsors of the WSIB Safety Group program, which is a rebate incentive program for employers in Ontario to receive a percentage of their WSIB premiums back for successfully completing the program requirements.

- Attend 3 EMC Safety Group meetings in the calendar year (held across the province/through webinars)
- Submit WSIB Action Plan, Progress Report & Year End Report Forms to EMC

BENEFITS FOR MEMBERS

It is based on the premise that a well-integrated workplace health and safety program is good for business.

Most of the work you perform in the Safety Group is already a legal requirement, so you might as well be receiving a rebate for your efforts. Plus, companies with improved H&S records tend to see a decrease in WSIB premiums

WHAT IS INVOLVED:

- Choose 5 H&S Elements (ex. WHMIS, First Aid, Health and Safety Orientation, RTW, JHSC)
- Create/Review/Revise a standard (procedure) for each element
- Share with your employees what you are doing for each element & train affected employees
- Evaluate each element. Based on the evaluation, make improvements & acknowledge success!

1. Up to 5% of the groups combined WSIB premiums back in a financial rebate if you are successful.
2. Unlimited seating at meetings for no extra cost (*bring your JHSC!*)
3. Ongoing Administrative support from EMC
4. Access to our 2 H&S professionals by phone, email, and on site visits (*we will help you get started, or just review your policies to make sure you are on the right track*)
5. Peer to peer support through networking at meetings
6. If selected for an audit, we will help you prepare by reviewing your policies and visiting your site to review documents with you and are present the day of the audit.
7. Help keep up with legislative requirements in Health & Safety
8. SAFER WORKPLACE!

EMC MEMBERS
